GENERAL NOTES ABOUT TENT AND PARTY RENTALS:

The rental period that you are purchasing is normally the weekend. We block out the equipment in our computer from around Wednesday thru the following Tuesday to prevent double booking. We usually start our setup on Tuesday, Wednesday, or Thursday and complete the install by Friday, weather permitting. We take down on the following Monday and Tuesday, weather permitting. This means the rental period is only the weekend. All this happens after you have met your responsibilities fully. This means that we have received full payment prior to starting to load and setup, generally TWO weeks in advance. The following always applies:

All deposits on tent and party rentals are non-refundable there are no exceptions.

- When we set up the dance floor you pick the spot- then we set up, moving the dance floor after that will be done at our option and only for an extra charge paid on site.
- The same rule applies to the set up of the tent, changes and moving are very expensive for you.
- If you rent lights we will install them in the tent and run extension cords to the edge of the tent. Everything that extends beyond the tent is your responsibility.
- If you rent temporary power, you need an electrician to hook it up. We do not provide one.
- When you rent tables and chairs we place them in a pile under the tent. We do not set them up. When we come to pick them up we expect the same applies to be waiting for us.
- If you rent tableware it comes in trays or baskets and we expect it back in the same manner.
